

D-Notes from Network #15

Important November (and one October) Dates:

- **October 29th** – Facility Update Report Due
- **Nov 10th** – Rosters with any Zip Code Changes due
- **Nov 10th** – October PARs due
- **Nov 25th** – Eat Turkey (or perhaps some other large bird or vegetable)

Treats are on the Way!

OK, maybe it's a stretch to call them treats, but the Third Quarter Rosters are on their way. The reason we send rosters is to double-check for any missed patient events, so please take your time looking at our roster. You should use the October PAR to notify us if there are any patient additions or losses not reflected on our list. Additionally, we ask that you review Zip Codes for each patient. Corrections to Zip Codes should be made directly on the rosters and then faxed back with the October PAR.

If your unit has not received your ~~treats~~ Roster in the mail by November 5th, please call the Data Dept at 303-860-1515.

Listen Up

If you work on Patient Activity Reports and missed our September TOPIC Call “The Dark Side of the PAR”, fear not -- a recording of this call is available until November 15th. Feedback we received indicated that people found this TOPIC very helpful, so we strongly encourage folks to catch the replay. Before listening you should download handouts from our website at: www.esrdnet15.org/data.htm#topic, then dial (Toll Free) 1 888 203-1112 and enter the passcode 73965508. After listening, we ask you to take our online Quiz and Survey. Both of these can be reached from the link shown above.

Tip of the Month: Modality IS Required!

Even if your facility only offers one modality (in-center hemo, CAPD, etc.) we STILL NEED for you to indicate the modality for all patients listed on your PAR.
